GOSHEN.

Since the ground has thawed the wheat seems to be played out and it is a poor prospect indeed.

The sick reported in our last correspondence have about all recovered. Mrs. Malinda Anderson has had a severe attack of the grip but is some better.

The complaint of the Hubble correspondent about muddy turnpikes is also heard in this vicinity. This, however, is not unusual at this time of year. If those in charge of repairing our turnpikes would quit putting on sand and soft gravel and put on nothing but rock of the best quality the complaint of muddy pikes would soon cease.

Rev. Jasper Livingston has been called as pastor of the Goshen church for another year, which will make 21 years he has served this church. This is eminently proper and right for no man deserves more honor and credit for the good influence that has gone out from this church than Mr. Livingston, who preached his first sermon here on the 5th Sunday in May, 1881, in a small log school house, where, so far as the writer knows, no one had ever preached before. His success was immediate, eight persons confessing their Savior at the first service and were baptized the same evening. A church was organized that year and the present church edifice was built the next and ever since Goshen has been a wide awake and live church. There is perhaps not a state in the union in which some person does not live who has received some spiritual nurture here.

KINGSVILLE.

Hoone Pilot is quite sick. Miss Annie McKee's subscription school began Monday.

Our people were sorry to lose Luther Lasham as Stanford mail carrier. He was accommodating to every one and very popular.

Your correspondent will go to Lexington Feb. 1 to take a course in stenography and typewriting to J. W. R. Smith's Commercial College.

The sportsmen of our town engaged in a fox chase Monday night and not only failed to catch the fox, but lost their horses, and for several hours before dawn, which did not seem to them "wee sma," however, they enjoyed (?) a walk through the dense woods.

Mr. Paulie E. Carey has returned home after a protracted visit to relatives at Lebanon Junction. Miss Mary Burton, of Somerset, is the guest of her parents here. Miss Gertrude Davidson is visiting relatives in Danville. Mrs. Sam McKeltham and son have joined Mr. McKeltham at Chicago. Born to the wife of Cicero Murphy a girl; also to the wife of Morris Wallis, a fine boy. Mrs. Coons, of Eubanks, is visiting relatives here. Mack Williams is at home for a visit from Glenmary, Tenn., where he is night operator. Our former ticket agent, J. Howe, is working at the Tower at Lexington. Will Wolf spent several days with the homefolks at Nicholasville.

Congratulations.

Mr. John H. Cullom, editor of the Garland, Texas, News, has written a letter of congratulations to the manufacturers of Chamberlain's Cough Remedy as follows: "Sixteen years ago when our first child was a baby he was subject to croupy spells and we would be very uneasy about him. We began using Chamberlain's Cough Remedy in 1887, and finding it such a reliable remedy for colds and croup, we have never been without it in the house since that time. We have five children and have given it to all of them with good results. One good feature of this remedy is that it is not disagreeable to take and our babies really like it. Another is that it is not dangerous, and there is no risk from giving an overdose. I congratulate you upon the success of your remedy." For sale by W. N. Craig.

The highest paid waiter in the world is Oscar Tschirky, superintendent of waiters at the Waldorf-Astoria. His salary is just \$25,000. He is the Jeffries of waiters, and has no close rivals. He is of German-Polish descent, and was a star at the Hoffman House, Fifth avenue, and Delmonico's before engaged for the Waldorf. Other head waiters receive as much as \$250 to \$300 a month in New York, \$100 to \$140, including tips, abroad.

The 4,000,000 or 5,000,000 Hebrews living within the "pale" of Russia, constitute about half the Jewish race. The space to which the Jews are limited is about the size of the German Empire. It is a territory reaching 500 miles eastward from the German frontier to a line 1,000 miles long, drawn from the Baltic to the Crimea, and would be ample room if Hebrews were permitted to till the soil.

Mr. Wm. S. Crane, of California, Md., suffered for years from rheumatism and lumbago. He was finally advised to try Chamberlain's Pain Balm, which he did and it effected a complete cure. This liniment is for sale by W. N. Craig.

LAND, STOCK, CROPS, ETC.

Two car loads of mules were bought at Elizabethtown at \$200 a head.

R. L. Hubble bought at Gallatin, Tenn., five jacks and a gelding at \$300 to \$600.

I have for sale eight No. 1, good 700 pound two year-old steers J. S. Purcell, Mt. Vernon, Ky.

J. H. Clay, of Bourbon county, sold his tobacco at 11c, and Clark Barnett sold 20,000 pounds at 12c with \$25 off for the crop.

Breck Bonta, of Mercer county, bought of David Castleman, of the same county, a pair of six year-old mules for \$250.

W. S. Gibbs, of Williamsburg, Washington county, sold to southern parties 55 cotton mules at prices ranging from \$115 to \$200 each.

Came to my place Jan. 19, a gray horse about seven years old, fistula in both shoulders. Owner can get him by paying for keep and notice J. W. Williams, Stanford.

Terhune & Brown sold 30 mules to Southern buyers for \$4,700. J. T. Black bought for Riker & Good, 3,335 turkeys. They weighed 61,529 pounds and cost \$4,987 35.—Harrodsburg Herald.

Mrs. James Clark, who kept account of the domestic produce she sold during the past year, from Jan. 1, 1903, to Jan. 1, 1904, reports the net sum of \$255 64 arising from this source alone.—Lancaster Record.

LANCASTER COURT.—There were about 150 cattle on the Lancaster market yesterday and the demand was good. Yearlings and two-year-olds brought \$1 to \$1.25, heifers \$3, butcher stuff \$1 to \$1.25. Mules and horses were in demand at big prices. A big crowd attended court.

At W. T. Mull's sale in Fayette milk cows brought from \$40 to \$60, work mules \$125 to \$200, sows \$12 to \$22, shoats \$2 to \$5, 300 barrels of corn were sold at from \$2 00 to \$2 80 a barrel in the crib, 120 tons of baled timothy hay brought \$14 80 a ton, baled straw \$5 a ton, shredded fodder \$6 a ton.

Jockey Lucien Lyon will not ride for James R. Keene this year, and thereby hangs a tale which may find its conclusion in the courts of the country. Lyon is under a three-year contract at \$20,000 a year. Mr. Keene's reason for annulling the contract is that Lyon violated his contract, because he spoke to Tod Sloan.

SOMERSET.

It is gratifying to be able to state that Somerset continues on the up grade, there being many anticipated improvements for the approaching season.

Revs J. W. Rawles and J. L. Owens will begin a series of meetings at the South End Baptist church Feb. 1st, and a protracted service will begin at an early date at the Presbyterian church.

Mrs. Ida Harrison, of Lexington, was warmly greeted by the ladies of the C. W. B. M. and an informal reception tendered her at the home of Mrs. Dr. G. W. Reddish, about 50 ladies being present. Her lectures were greatly enjoyed, every one feeling that her very presence was a benediction.

The revival meetings at the Christian church conducted by F. M. Tinder, of Lancaster, and O. P. McMahon, regular pastor, with Prof. Daugherty, of Louisville, singing evangelist, continue with increasing interest, with crowded houses at each service and several confessions up to the present. Rev. O. P. McMahon filled the pulpit of the Christian church at Lancaster on last Sunday for F. M. Tinder.

The Y. M. C. A. will organize here and it is confidently expected that the officials of the fine system of the Y. M. C. A. will expend a very liberal sum in a modern and thoroughly equipped building for the association. A first class hospital is also one of the certainties here. The new streets opened in the city will soon be MacAdamized as the work upon them will begin at once under the supervision of Conley Bros., of Danville.

It is evident that the good people of Somerset are putting forth every effort for the spiritual development and uplift of her citizens and it is to be hoped that the corporate management of our little city will ever be on the alert and heartily co-operate in every laudable undertaking for the betterment of our place until the surrounding hill tops will echo and reverberate the praises and virtues of this, the queen city of the mountains.

Domestic Troubles.

It is exceptional to find a family where there are no domestic ruptures occasionally, but these can be lessened by having Dr. King's New Life Pills around. Much trouble they save by their great work in Stomach and Liver troubles. They not only relieve you, but cure. 25c at Penny's drug store.

He rose to the rank of major in the Confederate army, and since the war, apart from his church work, had attained distinction as lecturer and writer.

MILLIONAIRE'S POOR STOMACH.—The worn out stomach of the over fed millionaire is often paraded in the public prints as a horrible example of the evils attendant on the possession of great wealth. But millionaires are not the only ones who are afflicted with bad stomachs. The proportion is far greater among the toilers. Dyspepsia and indigestion are rampant among these people, and they suffer far worse tortures than the millionaires unless they avail themselves of a standard medicine like Green's August Flower, which has been a favorite household remedy for all stomach troubles for over 35 years. August Flower rouses the torpid liver, thus creating appetite and insuring perfect digestion. It tones and vitalizes the entire system and makes life worth living, no matter what your station. Trial bottles 25c; regular size, 75c. At all druggists.

LANCASTER.

Mr. Ed Bishop has been spoken of as a candidate for mayor of Lancaster. He has lived in this city all of his life and is known widely in this community. He is a man of integrity and honor and to whatever position he might be elected he would fill it with credit and ability.

Herbert Dillon, the 14-year-old boy, who was accidentally shot about three months ago by his father while cleaning a revolver, died last week. This remarkable case of where a boy has lived after his brains have been shot out has attracted the attention of the medical fraternity all over the State.

City Councilmen Cherry and Sanders, of Harrodsburg, were here Thursday inspecting the water works system. They expressed themselves as being highly pleased with the construction of our system. These gentlemen have visited other cities and in comparison with them they pronounce our system very superior, especially the filter, which they think is the best in the State.

The local W. C. T. U. held their annual election of officers Saturday evening for the ensuing year with the following results: Mrs. G. N. Patterson, president; Mrs. J. B. Kinnaird, vice president; Miss Olivia Sweeney, recording secretary; Miss Ida May Grant, corresponding secretary; Mrs. Ed Price, treasurer. The vice presidents from different churches in town are Mrs. Maria Kirby, Presbyterian; Mrs. R. A. Stone, Christian; Miss Mary Knapp West, Baptist; Mrs. R. G. Ward, Methodist.

Miss Fannie Shugars has recovered from an attack of tonsillitis. Mrs. Wm. Anderson entertained Friday afternoon at her country home on Danville avenue. This was her 61st birthday. Mrs. T. C. Guiley is the guest of her sisters, Mrs. Rosa Crowe and Miss Allie Brown, of Louisville. Mrs. Grant and daughter, Miss Sela, of Danville, have returned from a visit to Mrs. Edward Price. Miss Mary Barnside is attending a house party in Frankfort given by Miss Francis Fogg. Mr. Jerry Reepes has returned from the south to spend the remainder of the winter with his family. Capt. W. J. Kinnaird has returned to his home in Middlesboro after a visit to relatives here. Dr. T. H. Hertz has been visiting his family in Shelbyville for the past week. Mrs. Wm. Wherritt, of New Orleans, has been visiting relatives here. Miss Mae Harvey Woodridge is visiting friends in Harrodsburg and Louisville.

The sudden death of Col. Dan R. Collier came as a shock to his many friends in Garrard county, his old home. No man in the State was more widely known or had a more loyal list of friends. Col. Collier was born in Garrard county in 1840 and has lived in this State during the 64 years of his life. At the first note of war he answered its call and served with distinction throughout its period. He filled many positions in the service of our State and government, and all with honor and distinction. Three children survive Col. Collier, Mrs. Robt. Elkin, Mrs. Joseph Robinson and Lieut. Wm. Collier. His remains were laid to rest Monday in the Lancaster cemetery under a covering of lovely flowers. Above his manly breast rested a floral flag, an emblem of the one he loved so well. The services were conducted by his devoted friend, Rev. Deweese, of Lexington, assisted by Rev. F. M. Tinder. So close the life of a man brave, loyal and as faithful to his trusts as any man could be.

CLIMATIC CURES.—The influence of climatic conditions in the cure of consumption is very much overdrawn. The poor patient, and the rich patient, too, can do much better at home by proper attention to food digestion, and a regular use of German Syrup. Free expectoration in the morning is made certain by German Syrup, so is a good night's rest and the absence of that weakening cough and debilitating night sweat. Restless nights and the exhaustion due to coughing, the greatest danger and dread of the consumptive, can be prevented or stopped by taking German Syrup liberally and regularly. Should you be able to go to a warmer climate, you will find that of the thousands of consumptives there, the few who are benefited and regain strength are those who use German Syrup. Trial bottles 25c; regular size 75c. At all druggists.

The Federal grand jury at St. Louis returned an indictment against United States Senator Joseph R. Burton, of Kansas, on the charge of accepting money from the Riata Grain and Securities Company, of St. Louis, for his services in interceding with the post-office department to secure a decision allowing the company the use of the mails.

THE LOUISIANA PURCHASE.

If the sum appropriated by the General Assembly for the purpose of representing Kentucky at the exposition to be held in St. Louis, commemorative of the Louisiana Purchase, should prove to be as great a benefit to the State as this historic purchase is to the United States, the money will not have been spent in vain. The territory of Louisiana, of which we took possession Dec. 20, 1803, under cession from France for the sum of \$15,000,000, embraced not only the boundary of the state now bearing that name, but also those of the states and territories of Arkansas, Iowa, Kansas, Minnesota, Missouri, Nebraska, Oregon, Colorado, both Dakotas, Washington, Montana, Idaho, Wyoming, Oklahoma and Indian Territory—a pretty considerable slice of our present domain.

The possession of this territory is one of the many blessings for which we are indebted to the statesmanship of Thomas Jefferson, though it is claimed in certain quarters that Livingston and Monroe are entitled to the sole credit and Jefferson merely with the sagacity of approving what they did without his knowledge. History, however, clearly shows to whom the credit is due.

Long prior to the purchase, the right of navigation on the Mississippi river was a fruitful source of discord among the western settlers. Spain then owned Louisiana, including both sides of the river's mouth and claimed the exclusive right of navigation thereon, which deprived the hardy western pioneers of a means of exit for their produce. The feeling over this matter was so high at one time that secret negotiations were pending between certain prominent Kentuckians and the Spanish authorities for the transfer of Kentucky to Spain. Jefferson was well aware of this dissatisfaction and of the importance to the United States of navigation on the Mississippi.

As far back as 1790, while he was secretary of state, a rupture seemed imminent between England and Spain, and Jefferson promptly prepared to seize the opportune moment for compelling a settlement of the open question of Mississippi navigation. The rupture, however, was averted and Louisiana on Oct. 1, 1800, was secretly sold by Spain to France, of which the United States authorities did not obtain knowledge until 1802. Jefferson was greatly chagrined over the change of ownership from a weak to a strong power and immediately took steps to purchase what was needed by the United States.

Congress in secret session left to him the management of the whole business and provided him with \$2,000,000 to be used as he saw fit.

Napoleon the Great was then in control of France and had long had his heart set on establishing a French colony in America. At first he disdainfully refused to consider a proposition to purchase any part of Louisiana. Unwilling to leave the affair entirely to the American minister to France, Jefferson on Feb. 11th, 1803, selected James Monroe (afterwards president) as a special emissary to go to France and assist in the negotiations. Luck, as usual, was on our side. By the time Monroe reached France, Napoleon was about to get into war and was sorely pressed for money. The scheme for an American colony had to be abandoned.

John T. Morse, one of Jefferson's biographers who shows no disposition in his book to give him undue praise, thus describes the consummation of the purchase: "Monroe's instructions had con-

templated only a moderate purchase, of the island and some land on the east side of the river, nothing more being thought possible. But Napoleon's notion now was to turn his most available assets into money with all speed. He intimated that he would sell Louisiana. . . . Monroe had gauged Jefferson's views with perfect accuracy and felt no fear. In a few days he and Livingston closed the bargain buying Louisiana outright. In their dispatches the envoys acknowledged that they had exceeded their instructions and humbly hoped that they had not erred. This was literally true, but it was only the letter not the spirit of their instructions that had been overstepped. Monroe well knew that he had only fulfilled Jefferson's real wishes.

But since this was not apparent on the surface the Federalists afterwards pretended to regard these professions of the negotiators as indicating that any credit there might be in the purchase was due to them rather than to the president. This, however, was an unfair artifice which at best could amount to nothing more than saying that the presidential policy had succeeded even beyond the hopes of the projector. The entire credit of the achievement belonged exclusively to Jefferson."

Col. D. R. Collier.

The recent death of this distinguished gentleman leaves a vacancy in the ranks of the State's citizenship which will be noted. Col. Collier was a man of pronounced individuality. He owned traits of character which his most intimate friends, and there are many of them, will be pleased to remember. He was ardent and sincere in his attachments. He was unselfish in his friendships. He was disinterested in his disposition to confer favors. He was generous, obliging, temperate in thought, judgment, and conduct. He was a brave, kindly man. He was considerate of the feelings and patient with the infirmities of everybody. He was accounted a valiant soldier during the Civil War. His promotion from the station of a private to the colonelcy of a regiment attests his courage and sound judgment. His hearty fellowship with Confederate soldiers will be pleasantly remembered by those whom he fought. Putting behind us all thought of some differences which may have touched the border line of asperity a few years ago, let us recall him only as a gallant, genial gentleman who, in his own way and in his own sphere, did many good things which will not die.

RUSSELL SAGE announces that he will now retire from active business life. With only \$100,000.000 to his account the poor fellow will be compelled to both study and practice economy for the balance of his life. Verily, the rich have some troubles the poor would be pleased to share.

The following sent from Harrodsburg should be taken with salt: "At Gray, 10 miles north of here, Barney McFarland died under peculiar circumstances, according to a report which has just reached here. He had been blind for 10 years, and yesterday he had three epileptic fits, the last of which was much more violent than the first two.

A friend gave me part of a bottle of Chamberlain's Cough Remedy with instructions to closely follow the directions and I wish to state that after the first day I could notice a decided change for the better, and at this time after using it for two weeks, have no hesitation in saying I realize that I am entirely cured." A HINT TO THE WISE.—We have sent out a number of statements lately and but few of those to whom we have sent them have responded.
